## BTFFCA CORROSION INHIBITOR CONCENTRATE

### SECTION 1 – PRODUCT AND MANUFACTURER IDENTIFICATION

Section 1, Identification includes product identifier; manufacturer or distributor name, address, phone number; emergency phone number; recommended use; restrictions on use.\*

**Product/Chemical Name:** BTFFCA Corrosion Inhibitor Concentrate  
**Product Description:** Sodium Hydroxide, Sodium Nitrite  
**CAS Registry:** Mixture  
**Manufacturer:** Blend Tech, Inc., PO Box 3600, Lake Tahoe, NV 89449, Phone: 888-869-4827  
**EMERGENCY RESPONSE NUMBER:** 800-633-8253

| <u>INGREDIENT</u> | <u>CAS NO</u> | <u>WEIGHT RANGE %</u> |
|-------------------|---------------|-----------------------|
| Sodium Hydroxide  | 1310-73-2     | <10%                  |
| Sodium Nitrite    | 7632-00-0     | 5-15%                 |

### SECTION 2 – HAZARD/S IDENTIFICATION

Section 2, Hazard(s) identification includes all hazards regarding the chemical; required label elements.\*

#### Signal Word: Danger

Primary Hazard Type: Toxic      Fatal if swallowed  
 Secondary Hazard Type: Corrosive      Causes severe burns and eye damage  
 Appearance: Clear yellow liquid  
 Odor: Slight  
 Likely Exposure: Eyes, Ingestion, Inhalation, Skin

#### Exposure Effects

Inhalation: May cause physical discomfort to the respiratory tract.  
 Eyes: Causes severe irritation (tears, blurred vision and redness) May result in permanent eye damage.  
 Ingestion: May cause nausea and vomiting. May cause irritation to the mouth, throat and stomach.  
 Skin: Prolonged contact may cause mild skin irritation.  
 Target: Not Determined.  
 Potential Carcinogens: As listed by OSHA, IARC, or NONE  
 Other Possible Health Effects: See Section 11 for more information.  
 This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).  
 Potential Environmental Hazards: Not considered to be harmful to aquatic life.

### SECTION 3 – COMPOSITION/INFORMATION ON INGREDIENTS

Section 3, Composition/information on ingredients includes information on chemical ingredients; trade secret claims.\*

| INGREDIENT       | CAS NO    | WEIGHT RANGE % |
|------------------|-----------|----------------|
| Sodium Hydroxide | 1310-73-2 | <10%           |
| Sodium Nitrite   | 7632-00-0 | 5-15%          |

### SECTION 4 – FIRST-AID MEASURES

Section 4, First-aid measures includes important symptoms/effects, acute, delayed; required treatment.\*

|                       |   |
|-----------------------|---|
| Inhalation:           | Move to fresh air. Remove any contaminated clothing. If breathing is difficult, administer oxygen. Get medical attention. |
| Eyes:                 | Immediately flush with water for at least 15 minutes or until the chemical is removed. Get medical attention!             |
| Ingestion:            | Do not induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention.           |
| Skin:                 | Wash off immediately with soap and water. If clothing is contaminated, remove and launder before reuse.                   |
| Special Instructions: | Follow usual and customary procedures.  |

### SECTION 5 – FIRE-FIGHTING MEASURES

Section 5, Fire-fighting measures lists suitable extinguishing techniques, equipment; chemical hazards from fire.\*

|                               |  |
|-------------------------------|--|
| Fire-fighting:                | Standard procedure for chemical fires.   |
| Fire fighter protection:      | Vapors and fumes may be irritating and toxic. Firefighters should wear self-contained breathing apparatus and full fire-fighting turnout gear. |
| Suitable extinguishing media: | Carbon dioxide, dry chemical, foam or water spray.   |
| Unsuitable extinguishing:     | Not applicable.  |

As with any chemical fire, combustion products of unknown toxicity are always possible.

### SECTION 6 – ACCIDENTAL RELEASE MEASURES

Section 6, Accidental release measures lists emergency procedures; protective equipment; proper methods of containment and cleanup.\*

|                       |  |
|-----------------------|--|
| Personal Precautions: | Use personal protection  |
| Containment:          | If possible, stop further leakage of the material. Contain spilled material by diking with non-flammable/diking materials. |
| Clean-Up Methods:     | Neutralize spilled material. Pump spilled liquid into disposal container.  |
| Environmental:        | Minimize use of water to prevent environmental contamination.  |
| Spill reporting:      | If the spilled amount is greater than the RQ in section 15, this spill must be reported to the National Response Center.   |

### SECTION 7 – HANDLING AND STORAGE

Section 7, Handling and storage lists precautions for safe handling and storage, including incompatibilities.\*

|           |  |
|-----------|--|
| Handling: | Use good industrial practices when handling. Avoid eye, skin, and clothing contact. Do not inhale mist or vapors. Do not taste or swallow. Use only with adequate ventilation. |
| Storage:  | Keep container closed when not in use. Avoid elevated and freezing temperatures.   |

## SECTION 8 – EXPOSURE CONTROLS/ PERSONAL PROTECTION

Section 8, Exposure controls/personal protection lists OSHA's Permissible Exposure Limits (PELs); Threshold Limit Values (TLVs); appropriate engineering controls; personal protective equipment (PPE).\*

| Exposure Guidelines: |  | OSHA    |      | ACGIH   |      |
|----------------------|--|---------|------|---------|------|
|                      |  | TWA     | STEL | TWA     | STEL |
| Sodium Hydroxide     |  | 2 mg/m3 | NE   | 2 mg/m3 | NE   |
| Sodium Nitrite       |  | NE      | NE   | NE      | NE   |

|                            |   |
|----------------------------|---|
| General Hygiene:           | Discard contaminated gloves after use. Have eye-wash facilities in the immediate vicinity. Work in adequately ventilated area. Do not breathe vapors or mist. Minimize any contact with any chemical. |
| Respiratory Protection:    | No special respiratory equipment is needed.   |
| Eye/Face Protection:       | Wear safety glasses when handling this material.  |
| Skin Protection:           | Wear nitrile or latex gloves. Wear protective clothing.   |
| Engineering Controls:      | Work in well ventilated areas. Do not breathe vapors or mists.  |
| Other Protective Controls: | Eye wash station and safety shower should be available in immediate work area. Select additional protective equipment based upon potential for exposure.  |

## SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Section 9, Physical and chemical properties lists the chemical's characteristics.\*

|                   |                |                         |                 |
|-------------------|----------------|-------------------------|-----------------|
| Color:            | Dark Yellow    | VOC Percentage:         | 0               |
| Physical State:   | Liquid         | Evaporation Rate:       | Not Determined  |
| Odor:             | Slight         | Odor Threshold:         | Not Established |
| Melting Point:    | Not Determined | Coeff. Water/Oil Dist.: | Not Established |
| Boiling Point:    | >200°F         | Lower Explosive Limit:  | Not Determined  |
| Specific Gravity: | 1.35-1.45      | Upper Explosive Limit:  | Not Determined  |
| pH:               | >11            | Flash Point (deg. C):   | Non Flammable   |
| Vapor Pressure:   | Not Determined | Solubility:             | Complete        |
| Vapor Density:    | >1             |                         |                 |

## SECTION 10 – STABILITY AND REACTIVITY

Section 10, Stability and reactivity lists chemical stability and possibility of hazardous reactions.\*

|                                     |  |
|-------------------------------------|--|
| Stability:                          | Stable.  |
| Conditions to Avoid:                | None known.  |
| Incompatible Materials:             | Strong Reducers.   |
| Hazardous Decomposition Products:   | Upon thermal decomposition carbon oxides and nitrogen oxides may form. |
| Possibility of Hazardous Reactions: | None expected.   |

## SECTION 11 – TOXICOLOGICAL INFORMATION

Section 11, Toxicological information includes routes of exposure; related symptoms, acute and chronic effects; numerical measures of toxicity.\*  
The toxicological data below is based on the main component(s).

### ACUTE EFFECTS

|                            |  |
|----------------------------|--|
| Acute Oral Toxicity:       | LD50(rat) = 180 mg/Kg, LD50(human) = 70 mg/Kg. |
| Acute Derma I Toxicity:    | LD50(rabbit) = 178 mg/Kg.                      |
| Acute Inhalation Toxicity: | Not Determined.                                |

Sensitization: Not a sensitizer.  
 Acute Eye Irritation: Severely irritating.  
 Acute Skin Irritation: Severely irritating.

### CHRONIC EFFECTS

Carcinogenicity: None of the components of this product are listed as a carcinogen by IARC, NTP, OSHA, or ACGIH.  
 Mutagenicity: One of the components of this product is considered a mutagen.  
 Reproductive Effects: Not Determined.  
 Teratogenicity: Not Determined  
 Synergistic Products: NONE

### SECTION 12 – ECOLOGICAL INFORMATION

The ecological data below is based on the main component(s)

| Species                   | Exposure | LC50           | EC50          |
|---------------------------|----------|----------------|---------------|
| <b>ACUTE FISH</b>         |          |                |               |
| Rainbow Trout             | 96 hrs.  | 0.2 - 0.4 mg/L |               |
| Mosquito Fish             | 24 hrs.  | 8.1 ppm        |               |
| <b>ACUTE INVERTEBRATE</b> |          |                |               |
| Daphnia Magna             | 48 hrs.  |                | 12.5-100 mg/L |
| <b>AQUATIC PLANT</b>      |          |                |               |
| Not Determined            |          |                |               |

Persistence/Degradability: Degradation is expected under aerobic and anaerobic conditions.  
 Bioaccumulation/Accumulation: No appreciable bioaccumulation is expected.  
 Mobility in Environment: Not determined.

### SECTION 13 –DISPOSAL CONSIDERATIONS

Product is a RCRA Hazardous: D002  
 Dispose of in accordance with federal, state, and local regulations.

### SECTION 14 – TRANSPORT INFORMATION

US D.O.T. and Canadian TDG (ground)  
 Proper Shipping  
 UN2922, CORROSIVE LIQUIDS, TOXIC, N.O.S. (Sodium Hydroxide, Sodium Nitrite), 8 (6.1), PGII  
 ICAO (air)  
 Proper Shipping Description: See US  
 IMDG (water)  
 Proper Shipping Description: See US

### SECTION 15 –REGULATORY INFORMATION

FEDERAL REGULATORY INFORMATION  
 All components are listed in the EPA Toxic Substances Control Act (TSCA) Chemical Substance

### Title III SARA Section

Product contains materials subject to reporting under SARA Section: NO

**CERCLA**

Product contains materials subject to reporting under CERCLA: NO

**Title III SARA Section**

Product contains materials subject to reporting under SARA Section: YES

**Resource Conservation and Recovery Act**

Waste code if a hazardous waste under RCRA (40 CFR): D002

**STATE REGULATORY INFORMATION****California Proposition**

Product contains materials that are carcinogenic and/or can cause reproductive harm and is subject to warning and discharge requirements under the "Safe Water and Toxic Enforcement Act of 1986":

NO

WHMIS Canadian Workplace Hazardous Material Information System WHMIS Classification: E

**SECTION 16 – OTHER INFORMATION**

Section 16, Other information, includes the date of preparation or last revision.\*

NFPA 704: National Fire Protection Association

Health: 3 Fire:0 Reactivity: 0

0 = Minimal hazard, 1 = Slight hazard, 2 = Moderate hazard, 3 = Severe hazard, 4 = Extreme
